Willow Lane Stables Celebrates Two Allowance Wins in Month of October

Two homebreds, two starts, two wins! October was a good month for John Kuehl’s Willow Lane Stables, as his two horses currently in training both won allowance races at different tracks. First was the three-year-old Highestdistinction, who was making his fourth career start after breaking his maiden last time out at Churchill Downs. He was able to carry that momentum into his allowance race at Delaware Park on October 17th, where he dug in gamely to get in front at the wire to win by a neck. Next up was Lost in Limbo, who ran in allowance company at Laurel Park on October 31st. The four-year-old Into Mischief gelding toyed with his rivals, leaving them all in his wake at the top of the stretch while easily drawing away to secure the victory. He has never finished off the board in five career starts at Laurel Park and was only 0.78 seconds off the track record! Both of these horses were foaled and raised at Endeavor Farm and are conditioned by Tom Proctor, who has done a great job having these guys tuned up and ready to go. Congrats to John on the recent successes he has had with these two homebreds. Both of these guys are hitting their stride and we wish everybody involved the best of luck as they move forward.

Hadley Breaks Maiden on Woodbine Turf

Congratulations to CJ Thoroughbreds, who won a maiden race at Woodbine on October 17th with their homebred Hadley (Tourist – Blondz Away, by Skip Away). The two-year-old filly rallied late in her second career start to get up just in time to secure the victory by a length. Hadley was foaled and raised at Endeavor Farm and was the first foal in Tourist’s debut crop. Longtime farm resident Blondz Away is now the dam of nine winners from ten starters with cumulative earnings of over \$770,000, including stakes winner Colonel Samsen. Way to go team Casse, keep up the good work!

Silver Hustler Partners’ Silver N Lai (Liaison – Silver Hustler, by Political Force) ran a tremendous race at Keeneland on October 22nd. In the face of stiff second-level allowance competition, the gray gelding proved he belongs with the big boys with an oh-so-close third place effort. He led the whole way until coming up just short at the wire, only getting beat by a neck. Not too shabby for a horse that went off at odds of 38/1! Silver N Lai was making

Silver N Lai Caught at Wire, Runs Third

his third start back off a very long layoff and looks to be improving as he gets back into his groove. His career earnings now total over \$71,000 from nine starts, finishing off the board only two times. Trainer Tom Amoss has done a great job of always having this horse primed to run big. Great ride by jockey David Cohen who got Silver N Lai out of the gate beautifully and right to the lead, which seems to be the best method of attack for this horse. Good luck to the Silver Hustler Partners next time out!
